ADVANCES IN MEDICAL DEVICES AND TECHNOLOGY

Multi-parameter monitor
Intensive care multi-parameter monitor / ECG / cardiac output / CVP - AESCULON™

MRI Compatible Patient Monitoring
MRI Compatible Patient Monitoring - Information portal/Control room display

Paediatric Magneto Encephalography
A whole-head pediatric magnetoencephalography system for human brain development research.

Neurostimulator
The stimulation adapters used with the ISIS Neurostimulator are color-coded and clearly labeled enabling easy connection to probes and electrodes at the patient's bedside.

Spirometer
A spirometer is a device used by medical professionals to measure a patients lung functions.

Blood Dializer
We transfuse blood to these patients on a hemodialysis at the initial stage when haemoglobin is very low which cannot be bought by whatever the EPO available in the market and with the patient with a complaint who follows regularly with the nephrologist their haemoglobin even can be maintained from the CKD stage 1 or 2 or 4 too. Once they go on dialysis it can be followed with drugs.

Oxygenator Water Jet Machine
Jet peel treatments are highly effective in skin texture improvement, wrinkle reduction, removal of unwanted pigmentation and overall skin rejuvenation.

Theranos Virtual Analyzer (TVA)
Theranos offers a full spectrum of laboratory tests, from the most common panels to highly specialized tests, on blood samples as small as a few drops.
