Bharat Interface for Money is an app that lets a bank customer make simple, easy and quick payment transactions using Unified Payments Interface (UPI). A bank customer can make instant bank to bank payments and pay and collect money using just mobile number or virtual payment address (VPA). It was launched in December 2016.

10. Debit Cards

ATM card is also called debit card. This card is more useful in purchase of goods and services anywhere in India, if the shop maintains a swiping machine facility. VISA card and Maestro card services are offered by Visa Corporation and Mastercard both from the USA. RuPay cards services were launched in March 2012 by the National Payments Corporation of India.

11. Credit Cards

Banks issue credit cards to customers and other eligible persons. With this card, the holder can purchase goods and services on credit at any shop in India. If the dues are paid within the stipulated time no interest is charged. The credit limit is fixed by the issuing bank based on the income of the cardholder.

12.05 Functions of All Commercial Banks in Totality

All commercial banks put together perform certain functions to the development of the country's economy.

1. More production and economic growth

These banks supply the vitamin money to all sectors of the economy including manufacturing sector. As a result all the sectors produce more.

2. Capital formation

Banks encourage savings habit among people and accumulate their small dormant savings. These funds can be fruitfully channelized for productive purposes of the economy.
