to inspect the consignment meant for export. If the inspector is satisfied with the packing he/she issues certificate mentioning that goods exported adhere to specification made by the exporter. This certificate is termed as Export Inspection Certificate. It is required by the customs authorities for the shipment of goods.

8. Insurance of Goods

Exporter has to arrange for getting the goods insured to protect them against the various risks like deterioration, collision, immersion, fire, entry of sea water etc., as per the instructions of importer if any.

9. Certificate of Origin.

Import regulation of foreign countries may require that all this import consignments must accompany a certificate of origin. This certificate certifies that goods which are exported have been manufactured in a particular country. In India, Chamber of Commerce, Trade Association, Export Promotion Council have been empowered to issue such certificate. It will be sent to importer, This certificate helps the importer to get concessions on import duty on the goods imported based on the bilateral trade agreement between the countries.

10. Consular Invoice

Where the customs duties are charged on the basis of value of goods at import's port(ad-valorem basis), the customs officers are empowered to open the consignment to calculate duties. In order to avoid this problem exporter obtains consular invoice and sends it over to the importer.

This document is signed by the consul of importer's country stationed in exporter's country. Hence customs officer at the port of destination will not open the consignment and simply access customs duty based on the value declared in the invoice. They simply accept the invoice as true statement of the content of the consignment.
