### 4.5.2 Posting of compound journal entry

When a journal entry has more than one debit or more than one credit or both, it is called a compound entry. For items debited in the compound entry, entries are made on the debit side in the respective accounts with the respective amount debited. For items credited in the compound entry, entries are made on the credit side in the respective accounts with the respective amount credited. Posting of such entries to ledger accounts is explained in illustrations 3 and 4.

### Illustration 3
