Dear Students!

This Accountancy textbook is the source of knowledge to provide you with the basic understanding of Accountancy and to make use of your analytical ability to make you an excellent person in applying the accounting principles to real business situations through various activities given in the textbook.

The book contains 14 units, within which the subdivisions and various student activities are given in an organised way to make learning easy, systematic and a pleasure.

The method of using this book effectively to learn the concepts and methods contained in it and explanation of the important items included in the text book are given below to have a better learning experience.

HOW TO USE THE BOOK

UNITS

Units are the broad divisions of the book which contain several subdivisions in each of them so that the students can have understanding of the specific substance in various parts of Accountancy education. Each unit gives the specialised knowledge on the content discussed. The units are to be learnt in the order given in the book to have continuity of learning and proper understanding of the subject matter.

SUBDIVISIONS

All the 14 units in the textbook have been divided into subdivisions that give the basic theory and practice of Accountancy today in an orderly manner.

Learning objectives give the level of knowledge to be attained by the students while learning the contents given in the unit.

POINTS TO RECALL

These help in proper understanding of the unit contents by providing a base for learning by recalling what is learnt earlier.

KEY TERMS

The key terms are the important concepts that the students are to be thorough within each unit. The students must be clear about these concepts to have clarity of thought and an able learning about the subject matter.

This section of the unit gives the various information about the present or past events or useful practices in the field of Accountancy relevant to the subject matter discussed in the specific unit.
