(iii) Rectification of errors after preparing the trial balance but before preparing the final accounts

(a) Rectification of one-sided errors after preparing the trial balance

If there is disagreement of trial balance and if it is not possible immediately to locate errors, the accountant may place the difference to 'suspense account'. After that, before the preparation of final accounts, the entries, postings, castings, balancing of accounts and amounts carried forward are scrutinised to locate the errors.

At this stage, every one-sided error is rectified by passing a rectifying journal entry with the respective account (debited or credited) and suspense account (credited or debited). The suspense account is used to rectify such errors so that the difference in trial balance placed to that account gets adjusted. Once all the one-sided errors are completely rectified, the balance in the suspense account gets eliminated.
