Unit 4

Hydrogen

Hydrogen, third most abundant on the surface of the Universe, is being visualised as the major feature source of energy

Antoine - Laurent de Lavoisier (1743-1794)

He recognised and named hydrogen and oxygen. He introduced a new system for chemical nomenclature in 1787

Learning Objectives

After studying this unit, the students will be able to

- Justify the position of hydrogen in the periodic table
- Recognise the different isotopes of hydrogen
- Explain the methods of preparation of hydrogen.
- Explain the properties of hydrogen
- Appraise the uses of hydrogen
- Differentiate various types of hydrides
- Translate the knowledge of structure of water for explaining its physical and chemical properties
- Differentiate hard and soft water and select the suitable method for water softening.
- Recognise heavy water and explain its properties.
- Explain the preparation and properties of hydrogen peroxide
- List the uses of hydrogen peroxide
