2 Put on clothes

3 Leave home

We have refined one action into a detailed sequence of actions. However, each of these actions can be expanded into a sequence of actions at a more detailed level, and this expansion can be repeated. The action "Eat breakfast" can be expanded as

1 -- Eat breakfast

2 Eat idlis

3 Eat eggs

4 Eat bananas

The action "Put on clothes" can be expanded as

1 -- Put on clothes

2 Put on blue dress

3 Put on socks and shoes

4 Wear ID card

and "Leave home" expanded as

1 -- Leave home

2 Take the bicycle out

3 Ride the bicycle away

Thus, the entire action of "Get ready for school" has been refined as

1 -- Eat breakfast

2 Eat idlis

3 Eat eggs

4 Eat bananas

5

6 -- Put on clothes

7 Put on blue dress

8 Put on socks and shoes

9 Wear ID card

10

11 -- Leave home

12 Take the bicycle out

13 Ride the bicycle away

Refinement is not always a sequence of actions. What the student does may depend upon the environment. How she eats breakfast depends upon how hungry she is and what is on the table; what clothes she puts on depends upon the day of the week. We can refine the behaviour which depends on environment, using conditional and iterative statements.

1 -- Eat breakfast

2 if hungry and idlis on the table

3 Eat idlis

4 if hungry and eggs on the table

5 Eat eggs

6 if hungry and bananas on the table

7 Eat bananas
