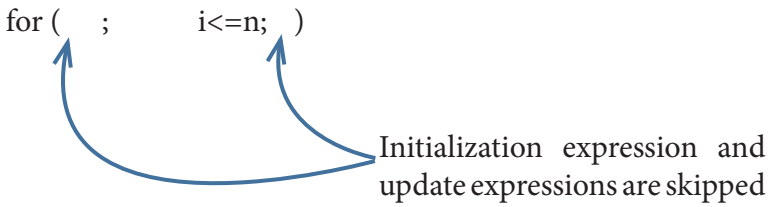
www.tntextbooks.in

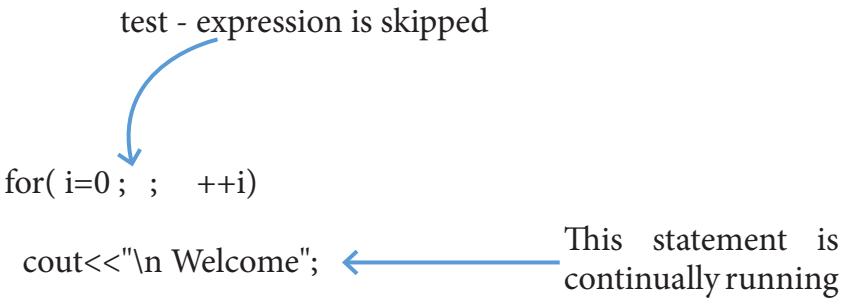
In the above code, the update expression is not done, but a semicolon is necessary before the update expression.



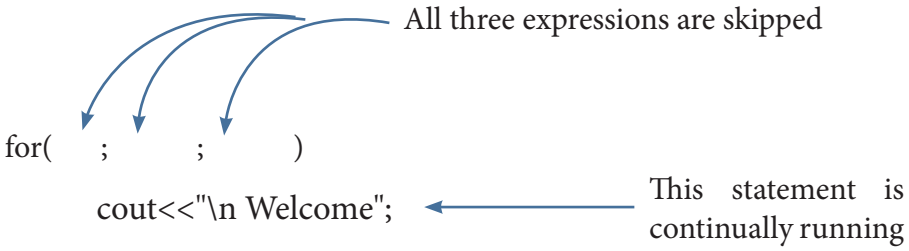
In the above code, neither the initialization nor the update expression is done in the for loop. If both or any one of expressions are absent then the control is transferred to conditional part.

Case 3

An infinite loop will be formed if a test-expression is absent in a for loop. For example,

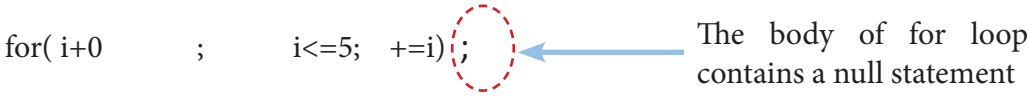


Similarly, the following for loop also forms an infinite loop.



Empty loop

Empty loop means a loop has no statement in its body is called an empty loop. Following for loop is an empty loop:



In the above code, the for loop contains a null statement, it is an empty loop.
