Write a program to perform addition of two matrices

```
#include<iostream>

#include<conio>

using namespace std;

int main()

{

        int row, col, m1[10][10], m2[10][10], sum[10][10];
        cout<<"Enter the number of rows : ";
        cin>>row;
        cout<<"Enter the number of columns : ";
        cin>>col;
        cout<< "Enter the elements of first matrix: "<<endl;
        for (int i = 0;i<row;i++ )
        for (int j = 0;j <col;j++ )
        cin>>m1[i][j];
        cout<< "Enter the elements of second matrix: "<<endl;
        for (int i = 0;i<row;i++ )
        for (int j = 0;j<col;j++ )
        cin>>m2[i][j];
```
