www.tntextbooks.in

```
int main()
{
        Seminar s1,s2(2),s3(s2);
        s1.Lecture();
        return 0;
}
```

4. Debug the following program

```
#include<iostream>
using namespace std;
class String
{
public:
charstr[20];
public:
void accept_string
        {
cout<<"\n Enter String          :  ";
cin>>str;
        }
display_string()
        {
cout<<str;
        }
        String operator *(String x)  //Concatenating String
        {
            String s;
strcat(str,str);
strcpy(s.str,str);
```
