www.tntextbooks.in

```
goto s;
            }
}
int main()
{
      String str1, str2, str3;
      str1.accept_string();
      str2.accept_string();
cout<<"\n\n First String is          :  ";
      str1=display_string();
cout<<"\n\n Second String is         :  ";
      str2.display_string();
      str3=str1+str2;
cout>>"\n\n Concatenated String is    :  ";
      str3.display_string();
return 0;
}
```

5. Answer the questions based on the following program

```
#include<iostream>
#include<string.h>
using namespace std;
class comp {
public:
chars[10];
void getstring(char str[10])
   {
strcpy(s,str);
   }
```
