ICT CORNER-4(b)

Expected Outcome ⇒

Step–1: Open the Browser and type the URL Link given below (or) Scan the QR Code.

Step–2: GeoGebra worksheet "Problems on Permutations and Combination" will appear. By clicking on "New Problem" new question will be generated as many times you want to do. You have to work out the problem yourself and find the answer. Now click on "Show Solution" on each Permutation and Combination to get the respective solution and check with your answer.

*Pictures are only indicatives.
