

Mr. Joseph started a trading business of selling readymade clothes. In the earlier period, he dealt only with cash, because he felt that would be risk-free. But, later on, he had to give credit period for his regular customers in order to retain them. For some customers, when they made bulk purchase, he offered them some discount. That brought him even more customers. But, some of his customers are not prompt in making the payment.

He expanded his business and employed few staff. As the credit transactions were numerous, he found it difficult to maintain properly. One of his friends, who is a Chartered Accountant advised him to maintain subsidiary books.

Discuss on the following points.

- What could be the reason for Joseph's feeling that dealing in cash is risk free?
- What type of discount is offered by Joseph?
- Suggest some ways to Joseph for making his customers to pay on time.
- Do you think that maintaining the subsidiary books will be useful to Joseph?
- What business documents are needed to maintain the subsidiary books?

To explore further

How do you make sure that the subsidiary books are maintained without any error?
