(ii) Error of commission

(a) Entering to wrong account (b) Entering wrong amount

(c) Entering to the wrong side of trial balance, etc.

9.4 Classification of errors

The errors can be classified into four types as follows:

9.4.1 Error of omission

The failure of the accountant to record a transaction or an item in the books of accounts is known as an error of omission. It can be complete omission or partial omission.

(i) Error of complete omission

It means the failure to record a transaction in the journal or subsidiary book or failure to post both the aspects in ledger. This error affects two or more accounts.

Examples

a	Purchase of a machine from Aadhavan & Co. on credit is not recorded in the journal.
b	Sale of goods to Arivuchelvan on credit not recorded in the sales book.

(ii) Error of partial omission

When the accountant has failed to record a part of the transaction, it is known as error of partial omission. This error usually occurs in posting. This error affects only one account.

Examples

a	Cash received from Ponnarasan recorded in the cash book but not posted to Ponnarasan's account in the ledger.
b	Goods sold to Cheran on credit recorded in the sales book but not posted to Cheran's account in the ledger.

Student activity

Think: Is there any way to avoid the error of partial omission?

9.4.2 Error of commission

When a transaction is incorrectly recorded, it is known as error of commission. It usually occurs due to lack of concentration or carelessness of the accountant.

The following are the possibilities of error of commission:
