Solution

(a) Depreciation account should be debited with ₹ 5,000.

(b) Wages account should be credited with ₹ 2,000.

(c) Nila account should be debited with ₹ 50.

(b) Rectification of two-sided errors before preparing the trial balance

When a two-sided error is detected before preparing the trial balance, it must be rectified by passing a rectifying journal entry in the journal proper after analysing the error.

Practical steps to be followed in rectifying two-sided errors

Step 1	Write the wrong entry (the entry which has already been passed in the books)	Wrongly done
Step 2	Write the correct entry (the entry that should have been passed in the books)	Not done
Step 3	Make the rectifying entry [the net effect by cancelling the wrong account (debit or credit) in the wrong entry by reversing it and recording the correct account in its place (debit or credit)]	To be done
