ICT CORNER

Cost and Revenue Analysis ANALYSIS: REVENUE ANALYSIS

This activity for Revenue Analysis helps in analysis of Total Revenue Under different conditions.

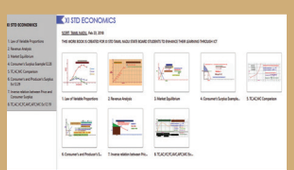

Steps:

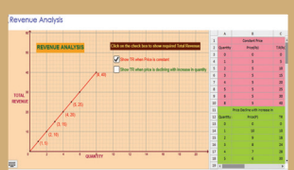

- Open the Browser type the URL given (or) Scan the QR Code.
- GeoGebra Work book called "XI STD ECONOMICS" will appear. Open the worksheet named "Revenue Analysis"
- In the Right side of the work sheet two data are given. 1.Total Revenue for the quantity when Price is constant and 2. Total Revenue for the quantity when Price is reduced when the quantity is increased. Analyse the graph drawn on the Left side for constant price. It is a straight-line graph.
- Now click on the check box , "Show Total Revenue when price is declining with increase in quantity". You can see a curve graph. Now analyse the data values and Graph in each Data and compare what is given in the text book lesson. You can get similar data from internet and type in the columns and see the change in graph.
