So he suggested the development of self-sufficient, self-dependent villages.

6. **Bread Labour**: Gandhi realized the dignity of human labour. He believed that God created man to eat his bread by the sweat of his brow. Bread labour or body labour was the expression that Gandhi used to mean manual labour.

7. **The Doctrine of Trusteeship:** Trusteeship provides a means of transforming the present capitalist order of society into an egalitarian one. It gives no quarter to capitalism. However, now India experiences both casino capitalism and crony capitalism

8. **On the Food Problem:** Gandhi was against any sort of food controls. He thought such controls only created artificial scarcity. Once India was begging for food grain, but now India tops the world with very large production of foodgrains, fruits, vegetables, milk, egg,meat etc.,

9. **On Population:** Gandhi opposed the method of population control through contraceptives. He was, however, in favour of birth control through Brahmacharya or self-control. He considered self-control as a sovereign remedy to the problem of over-population.

10. **On Prohibition:** Gandhi advocated cent per cent prohibition. He regarded the use of liquor as a disease rather than a vice. He felt that it was better for India to be poor than to have thousands of drunkards. But now many states depend on revenue from liquor sales.

7.8.3 Jawaharlal Nehru

Jawaharlal Nehru, one of the chief builders of Modern India, was the first Prime Minister of Independent India and he was there in that post till his death in 1964. He was a great patriot, thinker and statesman. His views on economics and social problems are found in the innumerable speeches he made and in the books he wrote.

a. Democracy and Secularism

Jawaharlal Nehru was a firm believer in democracy. He believed in free speech civil liberty,adult franchise and the Rule of Law and Parliamentary democracy. Secularism, is another signal contribution of Nehru to India. In our country, there are many religions - Hinduism, Islam, Christianity, Buddhism, Jainism, Zoroastrianism, Sikhism and so on. But there is no domination by religious majority. Secularism means equal respect for all religions.

b. Planning

Jawaharlal Nehru was responsible for the introduction of planning in our country. To Jawaharlal Nehru, the Plan was essentially an integrated approach for development. Initiating the debate on the Second Plan in the Lok Sabha in May 1956, Nehru spoke on the theme of planning. He said, *"the essence of planning is to find the best way to utilize all resources of manpower, of money and so on." Planning, for Nehru, was essentially linked up with industrialization and eventual self-reliance*
