ICT CORNER

Lithosphere Change is Constant

Through this activity you will to learn the land formed by Exogenic processes.

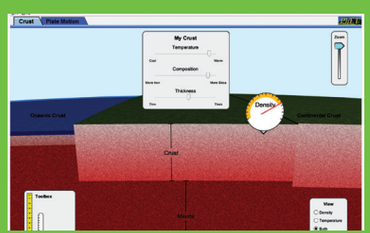

Steps

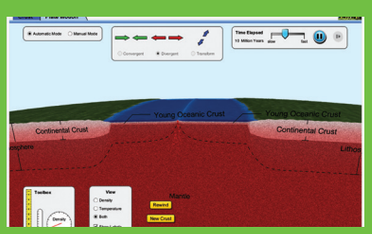

- Use the URL to reach 'Plate Tectonics' simulation page.
- Download JAVA binary file from the page and install it .Click 'Play' button to run the JAVA applet.
- 'Plate tectonics' crust page will open. Modify temperature, composition and thickness of the crust and measure the density and depth using the scale provided.
- Select 'Plate Motion' page and drag the crust form to converge or diverge motion and observe the exogenic process.
