South, 225° for South west, 270° for West and 315° for North west.

Step 4: Draw a bar with suitable with equal to the length of 2.7 cm in northern direction, 0.9 cm in the north eastern direction and so on to complete the diagram.

Step 5: Mention the calm in the centre, mention the scale chosen to draw the diagram and name the directions as instructed above.

Wind Rose Diagram
Percentage of days wind blowing from various direction.

1 c.m = 10% of days
(4 c.m diameter)

Activity

Know about the wind rose diagram and its interpretation in this web site: https://www.envitrans.com/how-to-interpret-a-wind-rose.php

Exercise

Draw wind rose diagram for the following stations.

Direction of Wind / Wind Blowing Days	Percentage of days wind blowing from this direction from the Stations			
	Kota	Delhi	Cuddalore	Cochin
North	10	4	6	2
North east	15	4	30	10
East	15	10	20	10
South east	10	8	8	6
South	2	4	6	25
South west	2	6	6	25
West	2	29	6	5
North west	4	3	6	7
Calm	40	10	12	10
