minutes, scale, the districts covered, etc. Marginal information is classified in to:

- **Extra Marginal Information**- Serial Number, name of the State, District and other general information.
- **Intra Marginal Information** – Grid information, contour values, names of the next nearest places connected by transport lines and distance in Km.
- **Inter Marginal Information or Body of the Map**– depicts the topography by using various Signs and symbols

11.5 Interpretation of Topo sheet

Study of Topographical Maps

Topographic maps are general reference maps. They are also called ordnance maps. These maps are ideal for researchers, planners, administrators, defence personal, hikers, tourists and for class room purpose. They give clear details of actually surveyed natural and manmade features. These maps are drawn to scale.

Geographical knowledge and clear understanding of conventional signs and
