The term Mongol refers to all Mongolic-speaking nomadic tribes of Central Asia. In the twelfth century, they had established a very large kingdom, which included most of modern-day Russia, China, Korea, south-east Asia, Persia, India, the Middle East and Eastern Europe, under the leadership of Chengiz Khan. Their phenomenal success is attributed to their fast horses and brilliant cavalry tactics, their openness to new technologies, and Chengiz Khan's skill in manipulative politics.

Balban succeeded in obtaining from him the assurance that Mongols would not advance beyond Satluj. Halagu Khan reciprocated this gesture by sending a goodwill mission to Delhi in 1259. However, Muhammad Khan, the favourite son of Balban, who was given the charge of governor of Multan to protect the frontiers from Mongol aggression, was killed in an encounter. Saddened by this tragedy, Balban fell ill and died in 1286.

Jalal-ud-din Khalji (1290-1296)

As Balban' son Kaiqubad was found unfit to rule, his three-year-old son Kaymars was placed on the throne. As there was no unanimity on the choice of a regent and a council to administer the empire, the contending nobles plotted against each other. Out of this chaos a new leader, Malik Jalal-ud-din Khalji, the commander of the army, emerged supreme. While he ruled the kingdom for some time in the name of Kaiqubad, he soon sent one of his officers to get Kaiqubad murdered and Jalal-ud-din formally ascended the throne. However, Jalal-ud-din faced opposition on the ground that he was an Afghan and not a Turk. But Khaljis were indeed Turks settled in Afghanistan before the establishment of Turkish rule and so they were Afghanized Turks. Jalal-ud-din won many battles and even in old age he marched out against the Mongol hordes and successfully halted their entry into India (1292).

Ala-ud-din, a nephew and son-in-law of Jalaluddin Khalji, who was appointed governor of Kara, invaded Malwa and this campaign yielded a huge booty. The success of this campaign stimulated his urge to embark on a campaign to raid Devagiri, the capital city of the Yadava kingdom in Deccan. On his return he arranged to get Jalaluddin Khalji murdered and captured the throne.

Ala-ud-din and Nobles

Ala-ud-din spent the first year of his rule in eliminating the enemies and strengthening his position in Delhi. Soon he turned his attention to establishing a firm hold over the nobles. He dismissed several of his top officers. He was particularly severe with the nobles who had shifted loyalty and opportunistically joined him against Jalal-ud-din.

Mongol Threats

Mongol raids posed a serious challenge to Ala-ud-din. During the second year of his rule (1298), when Mongols stormed Delhi, the army sent by Ala-ud-din succeeded in driving them back. But when they returned the following year with more men, people of the suburbs of Delhi had to flee and take refuge in the city. Ala-ud-din had to meet the problem head-on. In the ensuing battle, Mongols were routed. Yet raids continued until 1305, when they ravaged the doab region. This time, after defeating them, the Sultan's army took a large number of Mongols as prisoners and slaughtered them mercilessly. But the Mongol menace continued. The last major Mongol incursion took place in 1307–08.
