Equality of opportunities

The concept of equality implies that all people as human being are entitled to the same rights and opportunities to develop the skills and talents, to pursue their goals and ambitions.

Natural inequality and social inequality

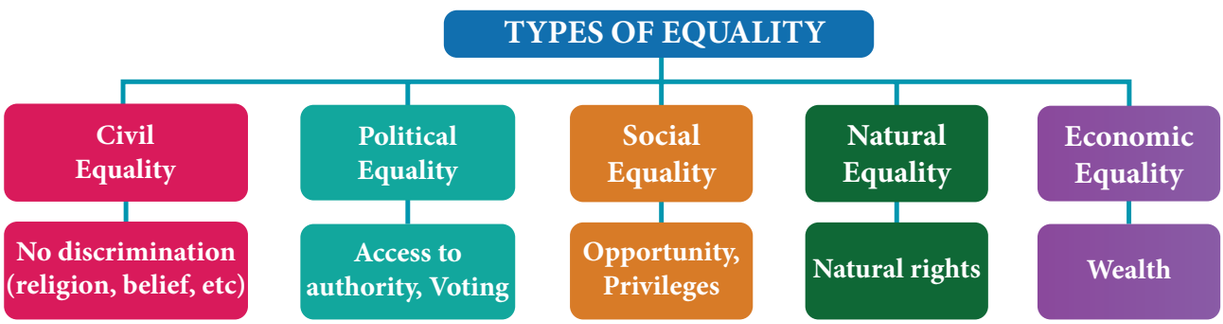

Natural inequalities are those that emerge between people as a result of their different capabilities and talents. These kinds of inequalities are different from socially produced inequalities which emerge as a consequence of inequalities of opportunity or the exploitation of some groups in a society by others. Natural inequalities are considered to be the result of the different characteristics and abilities with which people are born with. Social inequalities on the other hand are those created by society. Unequal treatment in society based on race, color, gender and caste are of social inequalities. Women were denied equal rights for centuries similarly, Blacks were treated as slaves until the institution of slavery was questioned . Even people born with disability with modern technological innovations are able to contribute like any other normal person.

Stephen Hawkings, contribution despite his disability is remarkable. Political philosophers have contributed various theories, philosophies and ideologies for further understanding and innovation to place society on equal platform.

Read the cartoon and identify the context of what type of inequalities are represented in this cartoon?

(i) Social Equality

Social equality means no one should be discriminated in the distribution of rights, privileges and opportunities based on birth, caste, religion, race, colour, gender or social status. Each one should be given equal opportunity to develop his personality. Social equality implies few important aspects. They are: removal of discrimination based on social status, absence of special privileges to few and finally ensuring equal opportunity in terms of acquiring education.
