(a) Carriage inwards or Freight inwards

Amount paid for transporting the goods purchased to the godown or business premises is called carriage inwards or carriage on purchases or freight inwards.

(b) Wages

Amount paid to workers who are directly engaged in loading, unloading and handling of goods purchased is known as wages.

(c) Dock Charges

These are the charges levied for shipping the cargo while entering or leaving docks. When they are paid on import of goods, they are treated as direct expenses.

(d) Octroi

This is a tax levied by the local authority when the purchased goods enter the municipal limits.

(e) Import duty

Taxes paid on import of goods are known as import duties.

(f) Royalty

This is the amount paid to the owner of a mine or a patent for using owner's right. When the royalty is based on cost of production or output, it is treated as a direct expense.

(g) Coal, gas, fuel and power

Cost incurred towards coal, gas and fuel to make the goods saleable is also considered as direct expenses.

(iv) Cost of goods manufactured

If the sole proprietor is also engaged in manufacture of goods, a separate account, namely, manufacturing account is to be prepared in which expenses incurred for manufacture of goods will be entered. Examples of such expenses are raw materials, coal, gas, fuel, water, power, factory rent, packaging, factory lighting, royalty on manufactured goods, etc. The total cost of goods manufactured is transferred to the debit side of trading account.

B) Items shown on the credit side of the trading account

Following are the items shown on the credit side of the trading account:

(a) Sales and Sales returns

Both cash and credit sales of goods will be included in sales. The sales account will show credit balance whereas the sales returns account will show debit balance. The amount of net sales is shown on the credit side of the trading account by deducting sales returns from sales.

(b) Closing stock

The goods remaining unsold at the end of the accounting period are known as closing stock. They are valued at cost price or net realisable value (market price) whichever is lower as per Accounting Standard 2 (Revised).

Student activity

Think: 'Closing stock need to be valued at cost price or market price whichever is less'. Which is the accounting principle applied here?
