

are the major nuclear energy plants for the energy grid.

Table 11.12 Nuclear Energy

Units	Existing Installed Capacity (2018)
Kudankulam	1834 MW (2 x 917)
Kalpakkam	470 MW (2 x 235)

11.9.2 Thermal Power

In Tamil Nadu the share of thermal power in total energy sources is very high and the thermal power plants are at Athippattu (North Chennai) Ennore, Mettur, Neyveli and Thoothukudi.

The generation of power under various sources is given below.

Table 11.13 Thermal Power

Source	Million Units	%
Thermal	13304	49.52
Hydel	2203	8.20
Nuclear	986	3.67
Others (Wind, Solar)	10372	38.61
Total	26865	100.00

(Source: Central Electricity Authority, Ministry of Power, Government of India. Retrieved 15 Jan.2017.)

11.9.3 Hydel Energy

There are about 20 hydro electric units in Tamil Nadu. The prominent units are Hundah, Mettur, Periyar, Maravakandy, Parson Valley etc.

11.9.4 Solar Energy

Tamil Nadu tops in solar power generation in India as seen in the following table.

Southern Tamil Nadu is considered as one of the most suitable regions in

Table 11.14 Solar Energy

Ranking	States	Total capacity (MW) 2017
1	Tamil Nadu	1590.97
2	Rajasthan	1317.64
3	Gujarat	1159.76
4	Telangana	1073.41
5	Andhra Pradesh	979.65
