ICT CORNER

Heat and Thermodynamics

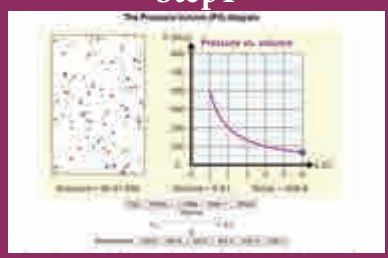

Through this activity you will be able to learn the PV diagrams for various thermodynamic process.

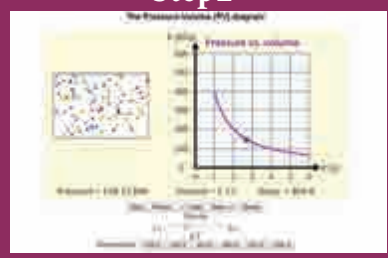

STEPS:

- Use the URL or scan the QR code to open interactive simulation on 'Pressure and Volume Diagram ".
- At selected temperature, change the "Volume" given below the graph and click play button.
- Now select a different temperature, change the 'Volume' again and find the change in the pressure both in the left image and graph.
- Repeat the same with different values and try drawing the graph accordingly. This also helps to understand isothermal process.
