

A) On the Basis of Activities and
B) On the Basis of Size

A) On the Basis of Activities

Industries may be divided into three wide categories namely 1. primary industries,
2. secondary industries and 3.tertiary industries.

1. Primary Industries

Primary industry is concerned with production of goods with the help of nature. It is a nature-oriented industry, which requires very little human effort, For example Agriculture, farming, forestry, fishing, horticulture, etc. These industries may be further sub divided as follows:

(i) Extractive Industries

These industries extract or draw out products from natural sources. Extractive industries

supply some basic raw materials that are mostly products of geographical or natural environment. Products of these industries are usually transformed into many other useful goods by manufacturing industries. Important extractive industries include farming, mining, oil drilling, hunting and fishing operations.

(ii) Genetic Industries

These industries remain engaged in breeding plants and animals for their use in further reproduction. The seeds,
